REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the claims are allowable over the prior art of record because the prior art fails to show or suggest, either singly or in combination thereof, a seat backrest reclining assembly which is locked in both an upright and a folded position. The assembly comprises a base, a rotating latching mechanism, and a reclining arm, the reclining arm fixedly mounted to the seat backrest and the rotating latching mechanism mounted between the reclining arm and the base to define an axis of rotation such that the reclining arm and the seat backrest may be operatively and selectively rotated relative to the base about the axis of rotation. A pivot arm is mounted to the base and has a pivot axis point disposed at a predetermined distance from the axis of rotation of the reclining assembly. A locking arm is rotatively mounted to the pivot arm coaxial to the axis of rotation of the reclining assembly and has a first locking surface and a second locking surface. The locking arm is selectively movable to rotate between a locked position and an unlocked position and a support arm is fixedly mounted to the seat bottom and rotatively mounted to the pivot arm at the pivot axis point, such that the pivot arm and the seat backrest may be rotated about the pivot axis point between an upright position and a folded position. The support arm provides a first locking point such that when the pivot arm and the seat backrest are in the upright position the first locking surface of said locking arm is engaged at the first locking point and the seat backrest is locked upright. The

support arm further provides a second locking point such that when the pivot arm and the seat backrest are in the folded position the second locking surface of the locking arm is engaged at the second locking point and the seat backrest is locked in its folded position.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
